

Pennsylvania Association for Rational Sexual Offense Laws
A Pennsylvania Safe and Just for All

PARSOL's Goals

PARSOL will:

- promote laws that will enhance sexual abuse prevention while protecting constitutional rights registrants and their families;
- advocate for the abolishment of dehumanizing registries as they are ineffective and contradictory to rehabilitation and public safety;
- support registrants, their families, and friends during times of difficulty;
- support litigation and legislation which remove or prevent retroactive increases in registration requirements and restrictions;
- promote laws that will rationally foster safer communities;
- hold public accountability toward legislators who promote reactionary laws towards those convicted of sexual offenses while doing little for prevention;
- discourage discrimination, violence, and vigilantism toward those accused or convicted of a sexual offense;
- seek out and support programs which effectively reintegrate and rehabilitate former offenders;
- work towards the restoration of rights afforded to all through the U.S. and PA Constitutions;
- promote healthy, trusting human interaction by replacing fear and panic with solid facts and reason;
- give a voice to all those who have been unfairly impacted of unjust laws;
- combat the myths of "stranger danger" and "frightening and high" through educating the public and legislators.
